						Estimated Total Volume	14,148	kWh
						Estimated Total Cost	3,551.10	£s
						Estimated Total	25.10	AVEPPU

Direct debit discount included

Please see over for terms and conditions.

This Contract Form and Schedule confirms the terms of your recent agreement with SSE Energy Supply Ltd. This document forms part of the Principal Terms of Contract and/or Statement of Renewal terms applying to Micro Business Contracts and must be read in conjunction with those statements.

As standard, Your Prices include the provision of 100% renewable electricity generated by wind and/or hydro assets wholly or partially owned by SSE Group. If Your Prices also include SSE Next Generation (please refer to the Prices on Your Contract), You will be able to trace your 100% renewable energy supply to named wind and/or hydro assets wholly or partially owned by SSE Group. Please refer to Our standard terms and conditions for additional terms that apply for SSE Next Generation.

This contract is on the condition that you already have an AMR or smart meter installed at the Supply Point. Where this is not the case, SSE will offer you a range of dates to have your metering upgraded as part of our smart meter rollout. If an appointment is not accepted and a compliant meter not installed, through no fault of Our own, within 90 days of us first contacting you to arrange an appointment for installation, then you will revert to our Variable Business Rates. If, once you have reverted on to Variable Business Rates, an AMR or smart meter is installed then you can renegotiate to go back onto a fixed term contract after 30 days from the date of the meter installation.

Payments are to be made by direct debit: which can be either variable, where the full amount is deducted from your nominated bank account within 14 days of the invoice date, or fixed/budget, where a fixed amount (determined by us) is deducted from your bank account on a monthly basis, unless an alternative payment method has been agreed. If your contract is based on direct debit payment and you later cancel or recall the direct debit, your unit rate will increase by 0.5p/kWh.

This contract is not complete until accepted by SSE and we reserve the right to withdraw the prices at any time without notice before our acceptance. Acceptance by SSE is the purchase of Energy by SSE for the supply that this contract applies to. SSE terms and conditions include provisions which limit SSE's liability to the customer. NB: The Supply start date may not be the date proposed on this form, the actual start date will be subject to us having a confirmed registration as supplier for each supply point. By entering into this agreement, the customer is entering into the standard connection agreement. Full terms and conditions are available upon request, alternatively you can log onto our business website <http://www.ssebusinessenergy.co.uk> to view these.

SSE - Electricity Matrix Contract

The Consumption shown is based on our understanding of information held for, given by, or on behalf of the customer as summarised above.

This contract is based on SSE Energy Supply Ltd's information held for the Supply Points listed in the Schedule. SSE Energy Supply Ltd reserves the right to vary this contract should any relevant information prove incomplete, incorrect or change. The contract relates to Prices only. Consumption will be as metered.

These Prices are inclusive of Fossil Fuel Levy, however Climate Change Levy and VAT are not included. From April 2015 a CfD (contract for difference) element was introduced into electricity supply costs, as part of the Levy Control Framework. Our offer includes provision for this CfD cost.

This contract is subject to Our standard terms and conditions (reference SSEESL/TC8), availability of supply and satisfactory credit status. This document comprises the Schedule and Contract Form referred to in the standard terms and conditions. A copy of the standard terms and conditions is available upon request.

SSE Energy Supply Ltd terms and conditions include provisions which limit SSE Energy Supply Ltd liability to the customer. The actual Commencement Date for each Supply Point will be subject to Us having confirmed Registration as Supplier and may not be the Commencement Date indicated here. The Supply Points are identified in the Schedule by the unique Core MPAN contained within the Supply Number. By entering into this Agreement the Customer is entering into the standard connection agreement.

For meter points subject to P272 with contract start dates from 05/11/2015, our contract offer is based on the following assumptions:

- That you have a Profile class 05 - 08, fully functioning, AMR compliant meter
- That your metering system is as shown on our contract offer
- That your Available Capacity is consistent with the load factor and consumption profile of your site
- That any existing contract arrangements with 3rd party agents will remain in place
